

**CENTURION™
MONITORING
SYSTEM**

**REAL TIME ACCESS
TO MISSION CRITICAL
PERFORMANCE**

THE POWER TO CONNECT

Available on select Motivaair chillers as an optional feature, the Centurion™ Monitoring System provides owners access to critical data and a range of safeties measures. The new monitoring system empowers the owner by offering a fully transparent exchange of encrypted data between the owner and chiller from a remote location via cellular service, outside of the firewall.

FEATURES

- Simple and fast access to essential information
- Extensive data trending, including real time access to chiller performance.
- Password protected multi-level access.
- Adjustable warning thresholds to alert the owner that operation is reaching a critical limit.
- No charge for monitoring service provided by factory for first year of operation.
- Available in all major global markets
- Backed by the security of AWS cloud services and T-Mobile/AT&T cellular networks.
